GMT 1907 Tiflis bank robbery - Wikipedia - A highwayman was a robber who stole from travellers. This type of thief usually traveled and robbed by horse as compared to a footpad who travelled and robbed on foot; mounted highwaymen were widely considered to be socially superior to footpads. Such criminals operated in Great Britain from the Elizabethan era until the early 19th century. In many other countries, they persisted for a few ...

Highwayman - Wikipedia -

The main difference with other APT attacks is that Carbanak attackers do not see data but money as their primary target. Losses per bank range from \$2.5 million to approximately \$10 million. Carbanak is the most successful criminal cyber campaign we have ever seen. The Great Bank Robbery: the
