Experimental compositional practice is defined broadly by exploratory sensibilities radically opposed to, and questioning of, institutionalized compositional, performing, and aesthetic conventions in music (). Elements of experimental music include indeterminate music, in ...

Rather than providing a dry collection of equations, this article will focus on the experimental uncertainty analysis of an undergraduate physics lab experiment in which a pendulum is used to estimate the value of the local gravitational acceleration constant g . The relevant equation for an idealized simple pendulum is, approximately, $\omega = \sqrt{g/L}$ Thu, 23 Dec 2010
