Oehlert University of Minnesota Thu, 10 Jan 2019 11:24:00 GMT A First Course in Design and Analysis of Experiments - In the design of experiments, optimal designs (or optimum designs) are a class of experimental designs that are optimal with respect to some statistical criterion. The creation of this field of statistics has been credited to Danish statistician Kirstine Smith. In the design of experiments for estimating statistical models, optimal designs allow parameters to be estimated without bias and with ...
