incremental learning
derives its name from the
incremental nature of the
learning process. In
incremental learning, all
facets of knowledge receive
a regular treatment, and
there is a regular inflow of
new knowledge that builds
upon the past knowledge.

The Illuminati (plural of
Latin illuminatus,
"enlightened") is a name
given to several groups,
both real and
fictitious. Historically, the
name usually refers to the
Bavarian Illuminati, an
Enlightenment-era secret
society founded on 1 May
1776. The society's goals
were to oppose superstition,
obscurantism, religious
influence over public life,
and abuses of state power.
