

Tue, 15 Jan 2019 13:27:00 GMT explosively driven pulsed power helical pdf - An explosively pumped flux compression generator (EPFCG) is a device used to generate a high-power electromagnetic pulse by compressing magnetic flux using high explosive.. An EPFCG only ever generates a single pulse as the device is physically destroyed during operation. An EPFCG package that could be easily carried by a person can produce pulses in the millions of amperes and tens of terawatts. Mon, 14 Jan 2019 18:57:00 GMT Explosively pumped flux compression generator - Wikipedia - An electromagnet is a type of magnet in which the magnetic field is produced by an electric current. The magnetic field disappears when the current is turned off. Electromagnets usually consist of wire wound into a coil. A current through the wire creates a magnetic field which is concentrated in the hole in the center of the coil. Tue, 15 Jan 2019 22:52:00 GMT Electromagnet - Wikipedia - Les générateurs magnéto-cumulatifs sont des générateurs de hautes puissances pulsés fonctionnant par compression d'un flux magnétique à l'aide d'explosifs. La compression de flux électromagnétique sans explosif est aussi possible, par l'action directe des forces de Lorentz sur un

conducteur traversé par un très fort courant électrique : voir Z-pinch. Générateur magnéto-cumulatif "Wikipedia - Devil In The Dark (1967) The Horta was an example of Silicon life.; Now we are really sailing off into terra incognita. "Here be dragons" and all that. But if you have starships, you almost have to have aliens (Isaac Asimov's Foundation trilogy being the most notable exception). The "science" is called Astrobiology, the famous "science in search of a subject". Aliens - Atomic Rockets -
