A numbered UGA Extension publication has been peer reviewed, has enough substance to stand on its own, and is written to be used and understood by the public. Wed, 16 Jan 2019 06:52:00 GMT Publications | UGA Cooperative Extension - The whirligig beetles are a family (Gyrinidae) of water beetles that usually swim on the surface of the water if undisturbed, though they swim underwater when threatened. They get their common name from their habit of swimming rapidly in circles when alarmed, and are also notable for their divided eyes which are believed to enable them to see both above and below water. Thu, 17 Jan 2019 11:44:00 GMT Whirligig beetle - Wikipedia - West Virginia Wildlife Diversity Program Publications To request any of the publications listed below write to: Publications, West Virginia Division of Natural Resources, P.O.
