humans from the beginning
from pdf - The Middle
Paleolithic spans the period
from 300,000 to 50,000
years ago. Some of the
earliest significant evidence
of religious practices dates
from this period. Intentional
burial, particularly with
grave goods may be one of
the earliest detectable forms
of religious practice since,
as Philip Lieberman
suggests, it may signify a
"concern for the dead that
transcends daily life."
